

Acute medication formulary Effective 1 January 2024

Please note the following:

- This formulary applies to the acute medication benefit for the **Wooltru Healthcare Fund Network Option**.
- Reference pricing is applied. Patients are advised to discuss the availability of less expensive generics with the pharmacist at the point of dispensing.
- The examples below serve as a guide to the prescriber. Listing of a particular product does not guarantee that a reference price will not be applied.
- If a product is dispensed that is more expensive than the reference price, the patient will need to pay the difference in price at the point of dispensing.
- Quantity limits apply to some items on this formulary. Quantities in excess of this limit will need to be funded by the member at the point of dispensing unless an authorisation has been obtained for a greater quantity.
- The formulary is subject to regular review. The formulary may be updated and changed when new information becomes available, prices change or when new medications become available on the market.
- While every effort has been made to ensure that products listed here are available on the market, it is possible that some products may be discontinued by the manufacturers during the course of the year. Should this be the case, patients are advised to discuss alternatives with the pharmacist or the prescribing doctor.

THERAPEUTIC CLASS	NAPPI CODE	PRODUCT LABEL NAME	LIMITS
ANAESTHETICS	799211	AMETHOCAINE CREAM	Qty limit = 2 Units; 3 fills per annum
ANALGESICS	792101	ACTAMOL 120MG/5ML SYRP	None
